

## **GS-P1-RN10D Specification**

## **Technical Features**

- ➤ New GUI, convenient and easy to use, supports functions, such as automatic addition, cross-network segment addition and other functions.
- > The camera can be automatically reconnected after changing IP
- > Support power amplifier speakers and 3.5mm audio output interface
- Support audio intercom (with headset two-in-one adapter)
- Support VGA、HDMI display simultaneously; HDMI maximum support 2K
- Support HDMI audio output;
- Support APP push alarm function

- > Support cloud updating function;
- Support human detection, face detection and vehicle detection function; (need camera support)
- > Support alarm linkage, local voice broadcasting and other functions, and support intelligent playback of human detection, face detection and car detection;
- > Can connect 16ch 5MP cameras:
- Support ONVIF protocol
- Support GB28181 protocol to facilitate platform access
- Support network and USB backup function, and the backup can be accurate to seconds
- Can control IPC image parameters setting.
- Support remote monitor and playback via EasyVMS
- APP P6slite can be used for remote monitoring and playback of video;
- > You can use APP p6site to scan the code and log in locally

## **Product Parameters**

System	
Model	GS-P1-RN10D
Main chipset	A1N
Operation system	Embedded Linux operating system

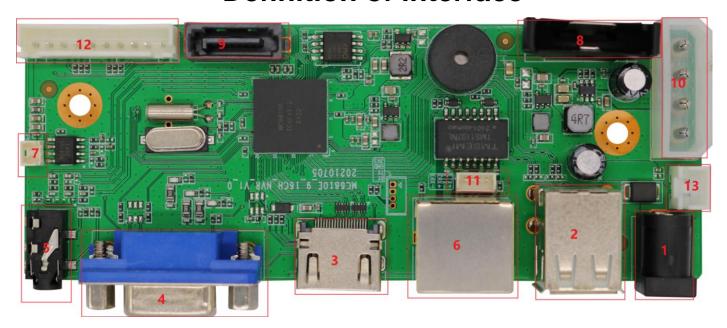

Interface Operation interface Image display  1/4/6/9/10 screen  Video Video Video access 10ch 5MP, Support dual stream Video frame 30fps Video output VGA*1, HDMI*1 Image decoding H.264/H.265 PTZ control Playback channels Record modes Timing record, motion detection record , manually record , intelligent record Record query Time playback, browsing playback, intelligent playback, event retrieval Intelligent function Al alarm Al playback Audio Voice alarm Voice format G.711U G.711A G.726 Audio input  1 (10 hits graphic interface, support mouse andkeyboard operation  1 (10 hits graphic interface, support mouse andkeyboard operation  1 (10 hits graphic interface, support mouse andkeyboard operation  1 (14/6/9/10 screen  2 (14/6/9/10 screen  1 (14/6/9/10 screen	——将师科技——						
Interface Image display  Video  Video access  10ch 5MP, Support dual stream  Video output  VGA*1, HDMI*1  Image decoding  H.264/H.265  PTZ control  Playback channels  Record modes  Record query  Intelligent function  Motion detection  Al alarm  Al playback  Disport Need camera support  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Video  Video  Video  Video access  10ch 5MP, Support dual stream  VGA*1, HDMI*1  Image decoding  H.264/H.265  PTZ control  Control the front-end camera with PTZ equipment through the network  PTZ equipment through the network  Al CH 5MP / 2CH 4MP / 4CH 3MP playback  Timing record, motion detection record, manually record, intelligent record  Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Support (Need camera support)  Support Al human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  G.711U G.711A G.726  Audio intercom	Interface						
Video access 10ch 5MP, Support dual stream  Video frame 30fps  Video output VGA*1, HDMI*1  Image decoding H.264/H.265  PTZ control Control the front-end camera with PTZ equipment through the network  Playback channels 1CH 5MP / 2CH 4MP / 4CH 3MP playback  Record modes Timing record, motion detection record, manually record, intelligent record  Record query Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Al playback Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	•	10 bits graphic interface, support mouse andkeyboard operation					
Video access 10ch 5MP, Support dual stream  Video frame 30fps  Video output VGA*1, HDMI*1  Image decoding H.264/H.265  PTZ control Control the front-end camera with PTZ equipment through the network  Playback channels 1CH 5MP / 2CH 4MP / 4CH 3MP playback Record modes Timing record, motion detection record , manually record , intelligent record Record query Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Al playback Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	Image display	1/4/6/9/10 screen					
Video output VGA*1, HDMI*1  Image decoding H.264/H.265 PTZ control Control the front-end camera with PTZ equipment through the network  Playback channels Timing record, motion detection record , manually record , intelligent record  Record query Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Al playback Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	Video						
Video output  VGA*1, HDMI*1  Image decoding H.264/H.265  PTZ control Control the front-end camera with PTZ equipment through the network  Playback channels Record modes Timing record, motion detection record, manually record, intelligent record Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	Video access	10ch 5MP, Support dual stream					
Image decoding PTZ control Control the front-end camera with PTZ equipment through the network Playback channels 1CH 5MP / 2CH 4MP / 4CH 3MP playback channels Timing record, motion detection record , manually record , intelligent record Record query Time playback, browsing playback, intelligent playback, event retrieval Intelligent function  Motion detection Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Al playback Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	Video frame	30fps					
PTZ control Playback Channels Record modes Record query Intelligent function Al alarm Al playback Al playback Al playback Channels  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio Voice alarm Voice format Voice format  Control the front-end camera with PTZ equipment through the network PTZ equipment through the network  1CH 5MP / 2CH 4MP / 4CH 3MP playback Time playback, ample playback, intelligent playback, event retrieval Intelligent function Support (Need camera support)  Support (Need camera support)  Support bluman detection + Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio Voice format  G.711U G.711A G.726  Audio intercom Support	Video output	VGA*1, HDMI*1					
Playback channels  Record modes  Timing record, motion detection record, manually record, intelligent record  Record query  Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection  Al alarm  Support (Need camera support)  Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  G.711U G.711A G.726  Audio intercom  Support	Image decoding	H.264/H.265					
Channels  Record modes  Timing record, motion detection record, manually record, intelligent record  Record query  Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection  Al alarm  Support (Need camera support)  Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Voice format  G.711U G.711A G.726  Audio intercom  Support	PTZ control	Control the front-end camera with PTZ equipment through the network					
Record query Time playback, browsing playback, intelligent playback, event retrieval  Intelligent function  Motion detection Support (Need camera support)  Al alarm Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Al playback Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format G.711U G.711A G.726  Audio intercom Support	_	1CH 5MP / 2CH 4MP / 4CH 3MP playback					
Intelligent function  Motion detection  Al alarm  Support (Need camera support)  Support human detection+ face detection + Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  G.711U G.711A G.726  Audio intercom  Support	Record modes	Timing record, motion detection record, manually record, intelligent record					
Motion detection  Al alarm  Support (Need camera support)  Support human detection+ face detection + Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  G.711U G.711A G.726  Audio intercom  Support	Record query	query Time playback, browsing playback, intelligent playback, event retrieval					
Al alarm  Support (Need camera support)  Support human detection+ face detection +Vehicle detection function, linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  G.711U G.711A G.726  Audio intercom  Support		n					
Al alarm  linkage push, big screen and voice broadcasting alarm functions  Support Al human playback, face playback and vehicle playback function, playback is more accurate.  Audio  Voice alarm  Voice format  G.711U G.711A G.726  Audio intercom  Support		Support (Need camera support)					
Audio  Voice alarm  Voice format  Audio intercom  Voice Support  Support  Audio playback is more accurate.  Playback is more accurate.  Supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  Support  Support	Al alarm						
Voice alarm  supports local audio warning broadcast linkage, built-in a variety of warning voice  Voice format  Audio intercom  Support  Support	Al playback						
Voice alarm  Voice  Voice format  G.711U G.711A G.726  Audio intercom  Support	Audio						
Audio intercom Support	Voice alarm						
	Voice format G.711U G.711A G.726						
Audio input  1:1 network audio input according to the number of channels	Audio intercom	Support					
	Audio input	1:1 network audio input according to the number of channels					
Audio output  Support HDMI audio output, 3.5mm audio output, 1.25pin connect with loudspeaker sound output	Audio output	Support HDMI audio output, 3.5mm audio output, 1.25pin connect with					
Storage backup	Storage backup						
Video storage Local hard disk, network(Easyvms remote recording)	Video storage	Local hard disk, network(Easyvms remote recording)					
Backup type Network backup, U-disk	Backup type	Network backup, U-disk					
Remote monitoring	Remote monitor	ing					
Mobile monitoring P6SLITE		P6SLITE					
PC monitoring Support VMS on LAN or WAN remote monitoring	PC monitoring	Support VMS on LAN or WAN remote monitoring					
Protocol Support TCP/IP,IPv4,DHCP,NTP,RTSP,ONVIF,P2P,GB28181, etc	Protocol						
Outer interface							
Video output 1pcs VGA, 1pcs HDMI	Video output	1pcs VGA, 1pcs HDMI					

XI+III4i6 tell					
Network interface	1pcs RJ45 10/100M, self-adaptive ethernet interface				
USB	2pcs USB 2.0 interface				
Hard disk	Hard disk 1pcs SATA 2.0; SATA interface maximum support 8T				
Other					
Power	DC12V 2A				
Consumption	≤15W (bare machine)				
Working	-10°C∼+50°C				
environment	100 1000				

## **Definition of interface**

	1	DC 12V	2	USB	3	HDMI
	4	VGA	5	3.5 inch audio interface	6	RJ45
Т	7	Loudspeaker interface	8	Battery	9	HDD data interface
h a	10	HDD power interface	11	Network expansion	12	Front panel GPIO interface
he	13	12V output
